Parent Behaviour During Interview.

**Parent 1 spontaneously praised the child's qualities or behaviour at least twice during the visit.**

The key word here is 'spontaneous', but since most parents enjoy talking about and are proud of their children, this is not hard to observe. **Condition of Home.**

**All visible rooms of the household are reasonably clean and uncluttered.**

This is an indication of conditions that might pose a health hazard to the child or that give the sense of a very chaotic household. If conditions in the home are clearly unsanitary (piled up rubbish, multiple days worth of stacked up dishes, clothes or newspapers strewn across the floor or left piled etc. then this would score 'No'. General untidiness or a lived-in appearance is not considered clutter.
