INTRO_Q01

Thank you for your ongoing contribution to the Growing Up in Australia Study.

You are about to enter the secure online survey, which covers questions related to your health, wellbeing and other aspects of your life. This is the second of two online surveys focused on finding out how you were affected by the coronavirus pandemic, extreme weather events and natural disasters.

As always, if you do not wish to answer a question you can skip it. You can simply leave the response blank and use the 'Next' button to move on once you have completed all the questions you are going to answer.

Do not use your browser's 'Back' and 'Forward' buttons to move through the survey. You can move around using the 'Next' and 'Previous' buttons. If you do inadvertently use your browser's 'Back' or 'Forward' buttons, please save and exit, and then open your survey again.

We estimate this online survey should take you approximately 30 minutes to complete.

If you find any of the questions in this survey upsetting please refer to our website at growingupinaustralia.gov.au, where you will find the Youth Services Card with helpful phone numbers and websites.

< Population: Did not submit Wave 9C1 survey >

Throughout this questionnaire we will ask about the coronavirus restriction period.

This is the period where governments put in place restrictions and recommendations designed to curb the spread of COVID-19, the disease caused by the new coronavirus.

Please answer the questions that refer to the coronavirus restriction period by thinking about the time when restrictions were first at their peak. For most people this would have been between March and May 2020.

The level of restrictions enforced varied across the states and territories, but for most people these restrictions would have included the following:

- Limits to the number of people you could gather with. In most states, gatherings of more than 2 people were not allowed, though in some states the limit was 10 people.
- Limits to the number of people allowed to attend funerals or weddings.
- Closing schools and universities, moving school to home-based learning or having longer school holidays.
- Closing down pubs, restaurants and / or some retail outlets.
- Being advised to work from home if possible.

INTRO_Q01

Thank you for continuing to participate in the Growing Up in Australia study.

You are about to enter the secure online survey, which covers questions related to your health, wellbeing and other aspects of your life. This is the second of two online surveys focused on finding out how you were affected by the coronavirus pandemic, extreme weather events and natural disasters.

As always, if you do not wish to answer a question you can skip it. You can simply leave the response blank and use the 'Next' button to move on once you have completed all the questions you are going to answer.

Do not use your browser's 'Back' and 'Forward' buttons to move through the survey. You can move around using the 'Next' and 'Previous' buttons. If you do inadvertently use your browser's 'Back' or 'Forward' buttons, please save and exit, and then open your survey again.

We estimate this online survey should take you approximately 30 minutes to complete.

If you find any of the questions in this survey upsetting please refer to our website growingupinaustralia.gov.au, where you will find the Emergency and Support Services Card with helpful phone numbers and websites.

Participant Study Consent

- Your participation in this study is voluntary and you may discontinue participation at any time.
- You may choose not to answer certain questions or any question that is not relevant to you.
- If you have any questions about your privacy or uses of the data, please refer to the Privacy Brochure.
- If you have any questions about the study, contact us on 1800 005 508 or at growingup@updatedetails.growingupinaustralia.gov.au

By continuing to the next screen, you are

- agreeing to participate and allowing us to use the data we collect for the Growing Up in Australia study, and
- acknowledging you have read the information above and received the Privacy Brochure.

< Population: Did not complete Wave 9C1 survey >

Throughout this questionnaire we will ask about the coronavirus restriction period.

This is the period where governments put in place restrictions and recommendations designed to curb the spread of COVID-19, the disease caused by the new coronavirus.

Please answer the questions that refer to the coronavirus restriction period by thinking about the time when restrictions were first at their peak. For most people this would have been between March and May 2020.

The level of restrictions enforced varied across the states and territories, but for most people these restrictions would have included the following:

- Limits to the number of people you could gather with. In most states, gatherings of more than 2 people were not allowed, though in some states the limit was 10 people.
- Limits to the number of people allowed to attend funerals or weddings.
- Closing schools and universities, moving school to home-based learning or having longer school holidays.
- Closing down pubs, restaurants and / or some retail outlets.
- Being advised to work from home if possible.
